

Bibliografija

Milan Predojević

Radovi na Web of Science, Scopus, SCIndex (M24 ili M51), CPCI-S/CPCI-SSH listama u posljednjih pet godina

- Radovi u časopisima sa SCIndex (M24 ili M51):

1. Milana Grbić, Vukašin Crnogorac, Milan Predojević, Aleksandar Kartelj i Dragan Matić. Supportness of the protein complex standards in PPI networks. Journal of Information and Telecommunication, volume 5 page 6-26, (2022). (Q2: Computer Science (miscellaneous), Q3: Computer Science Application);

Radovi u nacionalnim časopisima prve kategorije u posljednjih pet godina

1. Milan Predojević, Marko Đukanović, Milana Grbić i Dragan Matić. Can Greedy-like Heuristics Be Useful for Solving the Weighted Orthogonal Art Gallery Problem Under Regular Grid Discretization? International Journal of Electrical Engineering and Computing, volume 5, pages 77-85, (2021).

Radovi u nacionalnim časopisima (druge i treće kategorije), zbornicima i monografijama u posljednjih pet godina

1. Milana Grbić, Vukašin Crnogorac, Milan Predojević, Aleksandar Kartelj i Dragan Matić. How will are know protein complexes supported in PPI networks? Proceedings of the 2020 IEEE International Conference on Innovations in Intelligent SysTems and Applications, page 10, Novi Sad, Serbia, (2020).
2. Milan Predojević, Aleksandar Kartelj i Marko Đukanović. Variable neighborhood search for solving the k-domination problem. In Proceedings of the Companion Conference on Genetic and Evolutionary Computation, (pp. 239-242), Lisbon, Portugal, (2023).
