Institute of Logic and Computation, TU Wien

To whom it may concern

Support letter

The Institute of Logic and Computation, TU Wien, is an (international) _partner institution_ with the Faculty of Sciences and Mathematics, University of Banja Luka, on the joint bilateral research project between Austria and Bosnia and Herzegovina entitled

  „**Theretical and Algorithmic Aspects of Solving the Roman Domination Problems**"

The project started on 01/01/2023 with the planned date of finalization of 31/12/2024, thus the activities are currently online.

Marko Djukanović is a project coordinator of the Bosnian side, whilst I (Guenther Raidl) is coordinating the Austrian side.

The group of Guenther Raidl at the Institute of Logic and Computation will as the partner institution will (non-financially) support new projects of the partner institution in Bosnia and Herzegovina through those research activities of interest for both parties (e.g. supporting invited talks).

Vienna, 30.11.2023.   Professor Guenther Raidl
